

CAA Tire Coverage

Introduction

We provide extended tire coverage to the named insured on the Coverage Summary Page for tires on existing private passenger vehicle(s) listed on the Certificate of Automobile Insurance with CAA Insurance Company.

The damaged tire tread must be at least 2/32 of an inch from the lowest tread point and the tire must not have a manufactured date greater than six (6) years old. If these conditions are met we will provide coverage for repair or replacement.

The tire coverage described is only available to CAA policy holders with both CAA Home and CAA Automobile insurance and is subject to the terms and conditions. The tire coverage is available to the named insured for so long as we continue to offer CAA Tire Coverage, and for so long as the named insured concurrently remains a policy holder of both CAA Home and CAA Automobile insurance.
